**WORKING
FOR
YOU**

Environmental Commitment

We are deeply committed to the environment. This is why we are constantly on the lookout for leading-edge technology and renewable raw materials that do not harm the environment.

We purchase raw materials from certified green sources. Our select veneer is made with wood from renewable forests. Ultraviolet varnish is applied in hermetically sealed chambers to avoid polluting emissions, recyclable powder paint is applied at specific temperatures, etc.

Thanks to our advanced technology production equipment, we turn out top quality products, and at the same time all our industrial processes meet or exceed environmental standards.

Terms and Conditions

From prestigious executive suites to computer oriented U-shaped workstations, from beautiful gallery desks to more traditional settings, to complete wall units or multipurpose secretarial areas, the Darwin™ Collection is your best choice. Warm look, elegant solid wood edges, a palette of colors from modern natural maple to distinctive cherry finish, Darwin™ is not only a superb designer tool, it is also an excellent value.

- Multiple hardwood edge and finish options
- Modular pedestals, non-handed
- Fully veneered drawer and cabinet interiors
- 5-sided drawers have ¼" bottoms, dovetailing and full extensions
- Crown moulding on overheads
- Fully finished tops, sides and backs of all cases

Specifications

Specifications

Worksurfaces and sides are 1¼" thick; backs, modesty panels and fronts are ¾" thick.

Pedestals (desks and credenzas) are not handed and can be installed either on left or right.

Furniture is assembled using Minifix quick connectors.

Tops feature solid hardwood edges with mitred corners.

Tops have a 1" overhang all around, unless "flush sides" is specified.

Levelers allow up to ¾" height adjustment and they are adjustable from the inside on storage modules.

All dimensions shown are nominal.

Approximate weights and volumes relate to crated items and are indicated for shipping purposes.

Veneer

Genuine veneers, selectively book matched on all surfaces to provide proper consistency.

Drawer construction

Four-corner dovetailed box and file drawers are built as separate units for strength and durability. All drawers are finished with a 7-step catalyzed varnish finish to seal the grain and provide a smooth inner surface. Drawers are built with ⅞" wood sides and ⅞" wood bottoms. Drawer front is book matched veneer and is attached separately.

Drawer suspension

File drawers utilize a heavy duty full extension metal ball bearing slide for smooth operation. Box drawers operate on full extension slides allowing total access to the drawer.

Finish color matching

Different wood species offer unique texture and grain. Minor variations in finish color may occur due to the natural characteristics of wood. We carefully select all material used in every product insuring an excellent color and finish.

File drawers

Letter width file drawers and credenzas accommodate letter or legal filing.

Finishing techniques

Our 7-step, catalyzed varnish process utilizes the latest in technology. The superior strength of our finish provides enhanced stain and mar resistance for lasting beauty and easy maintenance.

Careful attention is paid to the selection, preparation, staining and shading processes. However, due to the natural characteristics of real wood – grain, texture, and local density – certain variations will occur from one piece to another, emphasizing the wood's natural beauty.

Grommets

Worksurface grommets must be specified separately. Hutch (Half-moon) grommets are included. Grommet kits are factory installed.

Oval grommet
(worksurfaces)

Half-moon grommet
(hutch and side panels)

E = Grommet
NE = No Grommet

Choice of edges

Delsanti™ is one of the broadest collection of wood office furniture available. Designed to increase your flexibility it offers an incredibly large number of furniture pieces encouraging a wide variety of applications.

By selecting Delsanti™ Collection you are purchasing more than furniture. You get durability and value: quality hardware, all wood drawers, dovetail drawer construction, wood veneer edges and a seven-step finishing process... Delsanti™ is quality furniture that is good for your image as well as for your bottom line, whether you are furnishing a single work setting or a full floor.

- Extensive choice of preconfigured shapes and sizes
- Hundreds of office solutions
- Fully veneered drawer and cabinet interiors
- 5-sided drawers have ¼" bottoms, dovetailing and full extensions
- Fully finished tops, sides and backs of all cases

Specifications

Construction

All tops, sides and backs of components are 1 1/4"-thick pine-based particleboard substrate; all exposed surfaces are covered with carefully selected, laid up book-matched cherry, maple or walnut wood veneers.

Non-exposed sides are covered with a backing veneer to ensure rigidity and discourage warping. Panel density is 45 lbs/sq. in.

Assembly is done with Minifix hardware, ensuring a strong and tight bond through metal-on-metal contact.

Tops and all exposed edges are finished with a matching veneer edge banding.

Desks and tables

Desktops and sides are 1 1/4"-thick substrate with wood veneer covering and wood veneer edge. Pedestals are factory installed and cannot be changed on location.

Single pedestal desks and tables can be attached to returns or bridges.

Modesty panels are 3/4" thick.

4" round steel legs are submitted to a phosphatization process before being finished with a satin sheen black, electrostatic powder paint dried at a very high temperature.

Grommets are standard on all tops and positioned as shown on drawings.

Credenzas

Top, back and panel sides (when there is no pedestal) are made of 1 1/4" substrate covered with wood veneer. They can be attached to a table desk, a bridge or a return worksurface.

Credenzas with pedestals or lateral files are factory installed and cannot be changed on location. A grommet is standard in the center back of the worksurface, and a half-moon grommet is standard on the back of the credenza. Positions of grommets are pre-determined, and grommets are factory installed.

Pedestals and lateral files

Pedestals of the collection have 3/4"-thick sides all around and, when part of a desk or a credenza, are made in the corresponding depth to replace a panel side leg. The bottom is reinforced with a solid wood piece to receive levelers.

Polymer glides with threaded 1/4" metal stem and adjusting nut are set in solid lumber, insuring easy height adjustments up to 1 1/4" for uneven floors. Proper leveling is essential for good operation of doors, drawers and locking mechanisms.

All pedestals are available separately with a 1 1/4" (30 mm)-thick top and matching back. They can be used independently or to complete a credenza and, as well, support a choice of stacking storage units, enabling flexible modular wall unit design.

Drawers

Box and file drawers are built as separate units using dovetail joints at all four-corners for structural strength and durability.

Drawer sides are built with 5/8" plywood with lacquered veneer covering. Drawer bottoms are made of a 3/8" laminate with a smooth, durable and easy to clean vinyl finish.

Drawer fronts are attached to the four-sided box and have vertically matched veneer over the entire set of drawers to ensure a consistent appearance for each pedestal.

Pedestal file drawers are equipped to accept letter size hanging files (front-to-back) and legal size files (side-to-side).

Drawer suspension

File drawers utilize a heavy duty, full-extension, metal ball bearing slide for smooth operation. Box drawers operate on full extension slides allowing total access to the drawer.

Full extension drawer glides operate on high quality, grade 200 hard steel with a 16" run for 24" deep drawers and 22" run for 30" and 36" deep pedestals. They include a polyurethane shock absorber and an automatic security system to prevent the simultaneous opening of two drawers in a lateral file. These glides allow for a very smooth, progressive, and silent action. Load capacity meets or exceeds ANSI/BIFMA norms (100 lbs for pedestal utility drawers and 135 lbs for file drawers).

Locks

Timberline security locks are standard on all desk, credenza, return, and lateral file drawers.

Locks are also an available option on other storage units, cabinets and hutch doors. Locks are factory installed in pre-determined positions.

Removable lock cylinders provide for keying alike, or re-keying in the field, for security reasons or when users change. When ordering furniture, always list components by office and tag, accordingly, to avoid random key number assignments.

Pulls

Drawer and door hardware is made in metal and offered in two finishes (matte black **S305** and polished chrome **S311**). For pedestals and freestanding storage units.

Hardware position is shown on each drawing. Please specify choice of finish by adding corresponding code to the end of each model number.

Grommets (included)

Round grommet (worksurfaces)

Upper storage and cabinet doors

All units with doors receive bi-dimensional hinge mechanisms with automatic closing device. These hinges allow a wide 95° opening, as well as vertical and depth adjustability.

Storage towers and cabinets

Storage cabinet tops are made of 1 1/4"-thick substrate with wood veneer covering and veneer edge banding. Sides and backs are 3/4" thick. Doors, drawer fronts, shelves, etc. are made with the same methods, quality and components as all pedestals. Full-extension, ball bearing suspension slides are identical to those used in lateral file drawers and adhere to the same quality standards.

One 1 1/4" x 5/8", 19 cal. chrome-plated finished oval hanging rod is included in each wardrobe or mixed wardrobe/storage cabinet.

Glass doors cabinets

The glass doors of these 16" deep cabinets use a frame of anodized aluminum profile fitted with translucent glass and hung on bi-dimensional hinges for an easy adjustment.

Finishing techniques

Our 7-step, catalyzed varnish process utilizes the latest in technology. The superior strength of our finish provides enhanced stain and mar resistance for lasting beauty and easy maintenance.

Careful attention is paid to the selection, preparation, staining and shading processes. However, due to the natural characteristics of real wood – grain, texture, and local density – certain variations will occur from one piece to another, emphasizing the wood's natural beauty.

Keying options

The following key options are available at the end of the model strings:

KN - No keys (use as default for non-lockable units)

KS - Key standard

KA - Key alike (note room numbers on order)

Storage Accessories

	CODE	DESCRIPTION	PRICE
File bars	KA.901.28.S	28" side-to-side hanging bar	19
	KA.901.34.S	34" side-to-side hanging bar	19
	KA.902.36.S	36" side-to-side hanging bar	19
	KA.902.42.S	42" side-to-side hanging bar	19
	KA.903.28.S	front-to-back hanging bar	19
<p>Sold individually. For side-to-side applications, one file bar is needed per drawer. For front-to-back applications, use two file bars for 28", 34", and 36" wide drawers to create two rows of filing and use four file bars for 48" wide drawers to create three rows of filing.</p>			

Da Vinci™ Collection is a modern and ergonomic evolution of the successful Darwin™ Series characterized by a fully postformed veneer edge which adds beauty and design to the comfort of flowing lines and soft curves.

This edge treatment allows a choice of two different layout concepts:

A) Desks and credenzas with knife edge all around. We call them “islands”.

They are used as center pieces, exhibiting exceptional design. They do not allow any attachment of return or bridge.

B) Your second layout option features modular desks, returns and credenzas with organic shapes created to enhance the comfort for people working on two or three adjacent worksurfaces.

The choice of preconfigured office solutions shows how flexible this collection is with a limited amount of components.

Add cabinets, pedestals and accessories to get the most of this exceptional collection.

Da Vinci™

- Top made of MDF material for postforming
- Exclusive fully postformed veneer edge
- Extensive choice of components, shapes and sizes
- Total modularity, hundreds of office solutions
- Fully veneered drawer and cabinet interiors
- 5-sided drawers have ¼" bottoms, dovetailing and full extensions
- Fully finished tops, sides and backs of all cases

Da Vinci™ Collection

Specifications

Specifications

Tops feature CD “knife type” postformed veneer edges where specified.

Postformed edges have a 3/4" overhang. Straight edges are flush.

Worksurfaces and sides are 1 1/4" thick; backs, modesty panels and fronts are 3/4" thick.

Pedestals (desks and credenzas) are not attached nor handed. They can be installed either on left or right.

Furniture is assembled using Minifix quick connectors.

Levelers allow up to 3/4" height adjustment and they are adjustable from the inside on storage modules.

All dimensions shown are nominal.

Approximate weights and volumes relate to crated items and are indicated for shipping purposes.

Veneer

Genuine veneers, selectively book matched on all surfaces to provide proper consistency.

Drawer construction

Four-corner dovetailed box and file drawers are built as separate units for strength and durability. All drawers are finished with a 7-step catalyzed varnish finish to seal the grain and provide a smooth inner surface. Drawers are built with 7/16" wood sides and 3/16" wood bottoms. Drawer front is book matched veneer and is attached separately.

Drawer suspension

File drawers utilize a heavy duty full extension metal ball bearing slide for smooth operation. Box drawers operate on full extension slides allowing total access to the drawer.

Finish color matching

Different wood species offer unique texture and grain. Minor variations in finish color may occur due to the natural characteristics of wood. We carefully select all material used in every product insuring an excellent color and finish.

File drawers

Desk and credenza letter width file drawers accommodate letter or legal filing.

Finishing techniques

Our 7-step, catalyzed varnish process utilizes the latest in technology. The superior strength of our finish provides enhanced stain and mar resistance for lasting beauty and easy maintenance.

Careful attention is paid to the selection, preparation, staining and shading processes. However, due to the natural characteristics of real wood – grain, texture, and local density – certain variations will occur from one piece to another, emphasizing the wood’s natural beauty.

Grommets

Worksurface grommets must be specified separately. Hutch (Half-moon) grommets are included. Grommet kits are factory installed.

Oval grommet
(worksurfaces)

Half-moon grommet
(hutch)

E = Grommet
NE = No Grommet

Choice of finishes

- **Z221** Kensington Maple
- **Z222** Monticello Maple

Terms and Conditions

Terms of Sale

ALL PRICES LISTED HEREIN ARE DELIVERED PRICING WHEN MINIMUM ORDER QUANTITIES ARE MET.

Net 30 days. All prices are subject to review annually for changes in accordance with state contract regulations. All custom/nonstandard products are subject to a fifty percent (50%) advance deposit. KI reserves the right to use its own or commercial carriers for the "best way" to ship, at its sole discretion. The electronic version of the price list is the prevailing document.

Sales Policy

Possession of this price list does not constitute authority to purchase and/or sell products contained herein.

New Accounts

New accounts require the approval of a KI sales representative, credit references and a valid tax exempt or resale certificate where applicable. KI also accepts Mastercard and Visa.

Acknowledgements

Every order is acknowledged. Orders will be manufactured and invoiced based upon the information on the acknowledgement. If there is any discrepancy, please notify KI immediately. Orders are accepted by KI per terms on the acknowledgement. All acknowledgements contain an estimated shipping date. Your order may actually ship earlier than the estimated shipping date, depending on the backlog at the time. If you do not want the merchandise earlier than the specified date, please write "Do not ship for arrival before ____," on your purchase order.

Fax Orders

Orders may be sent to KI via FAX. Use the 800 Number for order faxing. The KI FAX number is: 1-800-405-2264.

If a confirming order is sent to KI, the order must be marked "Confirming Order. Original order sent via FAX." KI will not be responsible for any duplication of orders caused by unmarked hard copy, confirming orders or orders sent via FAX more than once.

Freight and Fuel Surcharge Fee

KI reserves the right to apply a 1% Freight and Fuel surcharge to customer orders. This surcharge may vary over time due to prevailing economic conditions.

C.O.M. Fabric Requirements

Fabrics must be approved for upholstery and flammability prior to acceptance of an order. Upon approval, a 1' square sample swatch must accompany the order. KI assumes no responsibility for wear, defects or performance of customer's own fabrics or vinyl.

For exact production yardage requirements, call KI Customer Service: 1-800-424-2432.

For products shipped from Manitowoc, WI facility, ship material to:

KI Manitowoc
Attn: C.O.M. Storage
1400 S. 41st St.
Manitowoc, WI 54220

Rights and Warranties

North American (U.S., Canada, Mexico) Lifetime Warranty

The following KI product warranty applies to products manufactured after May 31, 1997.

This warranty is given to the initial purchaser and is valid for as long as the product is owned by the initial purchaser. The warranty, which runs from the date of manufacture, covers defects in materials and craftsmanship found during normal usage of the products during the warranty period. If a product is defective, and if written notice of the defect is given to KI within the Applicable Warranty Period, KI at its option will either repair or replace the defective product with a comparable component or product, or provide a refund of the purchase price. The **Lifetime Warranty** applies to all product regardless of the number of shifts the product is used each day except as listed below:

• All KI branded products (except as noted below)	Lifetime (as defined above)
• Intellect® classroom products • Ivy League™ classroom products (except lift lid supports) • RoomScape® Residence Hall products (no exceptions) • Wood Residence Hall products (except Sustain® Products) • CrossRoads® Library products	• Gadgetz™ desktop accessories Fifteen (15) Years
• Wharton™ Lectern • Auditorium Seating products • Site Furnishing indoor products • Drawer/door slides • Resin Edge Tables • ValueLite® Tables • Fixed Seating products (except springs & bushings) • Uniframe® table frames, table tops with bullnose edge and convertible benches	• Electrical products • SystemWall® movable walls • Balance® Overheads • Sustain® Residence Hall products • DuraLite® Tables Ten (10) Years
• Contract Stacking Chairs and Contract Tables • Pedestal Seating • Tandem and Modular Seating	Ten (10) Years (single 8-hour shift) • KI Healthcare products
• Heroic™ Seating	Ten (10) Years (24 hour use)
• Institutional Folding Chairs, Folding Tables & Accessories • 1000, 6000, 501 and 500 Series chairs • Stools • Chair casters, table casters and storage casters • Ivy League™ lift lid supports • Pneumatic cylinders on All Terrain® tables	Five (5) Years
• Site Furnishing outdoor products	Three (3) Years
• High wear parts such as wood veneers, fabrics, other covering material/finishes, foam, glides, springs, bushings and user adjustable worksurface mechanisms.	One (1) Year
• Non-standard products	One (1) Year
• Third Party Supplied Product	Suppliers Warranty

This warranty does not apply to damage caused by a carrier, alterations to the product not expressly authorized by KI, nor to products considered to be of a consumable nature such as bulbs, light ballasts and surge suppression products. It also does not apply to "Customer's Own Material" (i.e., material supplied by the customer that is not a standard KI product offering) used in the manufacture of KI products. KI does not warranty the matching of color, grain or texture except to within commercially acceptable standards. A product will not be considered defective, and KI will not be obligated to replace it, if the product is subject to any of KI's written planning, installation or user guides, and is not installed or used as recommended therein.

EXCEPT AS STATED ABOVE, KI MAKES NO EXPRESS OR IMPLIED WARRANTIES AS TO ANY PRODUCT AND IN PARTICULAR MAKES NO WARRANTY OF FITNESS FOR ANY PARTICULAR USE. AT KI'S OPTION, PRODUCT REPAIR, REPLACEMENT, OR REFUND OF PURCHASE PRICE IS THE CUSTOMER'S EXCLUSIVE REMEDY FOR ANY AND ALL PRODUCT DEFECTS.

KI shall not be liable for consequential, economic or incidental damages arising from any product defect. International Warranties may differ.

Terms and Conditions

Care and Maintenance

Care must be exercised whenever cleaning materials constructed of wood or leather. Certain precautions will keep new furniture looking new. Wet objects should be placed on coasters and writing should be done on a desk pad. Sharp metal objects such as spring binders and briefcase hinges should be kept from contact. Contact between finish and certain plastic compounds may result in discoloration and finish damage. Avoid exposure of furniture to extremes of heat and cold. Avoid exposing the furniture to strong sunlight. Although the finish is as fade proof as possible, the veneer beneath the finish can change color due to sunlight.

Wood Finishes

Dust all surfaces frequently with a clean, soft, damp cloth, moving the cloth with the grain. General purpose dusting treatments should be applied as required by using a clean dry cloth. Do not use spray polishes or those containing silicone. Spray polishing products such as "Pledge" or "Endust" are discouraged on furniture because use of these products may result in an oily build up.

Maintenance

To maintain proper operation of the drawer suspension, lubricate the area housing the ball bearings every three to six months with a high quality petroleum jelly type lubricant. To ensure correct drawer alignment, your desk or credenza must be leveled. Check to see that unit is level and adjust the glides if necessary.

UPS Shipment Limitations

Maximum weight per package - 150 pounds.
Maximum size per package - 130 inches in length and girth combined, with no single dimension exceeding 108 inches.

Title to Merchandise

Title to merchandise shall pass to the buyer upon delivery by KI to the carrier. For purposes of risk of loss, all shipments are F.O.B. factory. Buyer acknowledges that once KI delivers the goods to the carrier, title to the goods and risk of loss will pass to the buyer. If the goods are damaged by the carrier while in transit, the buyer has the sole obligation of seeking any appropriate recourse against the carrier.

Freight Terms

Freight charges will be prepaid on all shipments that meet minimum order quantity. 1% Freight and Fuel Surcharge does not apply.

Delivered pricing is based on shipment to the 48 U.S. contiguous states. For shipments destined to other U.S. states, possessions or territories, delivery will be made to a prearranged port.

Normal delivery is dock-to-dock. Special requests such as inside delivery, lift-gate service, residential delivery, etc. are subject to additional charges. All accessorial charges not requested on purchase order will be the responsibility of the consignee.

KI reserves the right to select the "best way" shipment method and means.

Delivery date and time are at the discretion of the carrier within reasonable transit time unless special arrangements have been made between the customer and KI.

Redelivery of Freight

When redelivery of merchandise is required because customer is not ready to accept merchandise, and no notification of this fact is given to the factory at least two weeks prior to the scheduled ship date, the actual costs for freight, restocking and rehandling, plus 5% of the order value, will be billed to the customer.

Shipment Damage Claims

All merchandise is packaged to comply with carrier requirements. All shipments should be carefully inspected by the consignee before acceptance, and the delivering carrier should be requested to record any damage or shortage. If further damage is found after delivery, immediate inspection by the delivering carrier should be requested. Notification of concealed damages must be made to the delivering carrier within 15 days after delivery of merchandise. Carrier liability ceases after 15 days. Damaged freight must be kept at the point of delivery in the original packing for inspection by the carrier. CAUTION: After obtaining a clear receipt for shipment, the delivering carrier is no longer responsible for damage or shortages.

Shortage Claims

Shortage claims reported after 10 days beyond shipment date will not be honored.

Unopened Shipment Damage Claims

Neither KI nor the carrier will be responsible for concealed damage claims if shipments are left unopened. Notification of concealed damages must be made to the delivering carrier within 15 days after delivery of merchandise.

Lost Shipments

KI issues a copy of bill of lading to consignee on date of shipment. If KI shipment is not received within 30 days of shipment date, notify KI. Neither KI nor carrier will assume obligation for lost or damaged shipment claims after 9 months of shipping date.

Flammability Standards - Seating

California Technical Bulletin 117 (CA 117) - All seating products manufactured by KI meet or exceed the standards set forth in California Technical Bulletin 117 and are labeled accordingly.

California Technical Bulletin 133 (CA 133) - KI offers numerous products that can be manufactured to meet the flammability requirements set forth in California Technical Bulletin 133. For products to meet the requirements of the open-flame test, changes in materials are made. Restrictions are placed on fabric selections and product type. When ordering product to comply with CA 133, the "FR" option must be selected in the model number string. Please see individual sections in the price list for additional cost and lead-times, which vary between products.

Flammability Standards - Panels

ASTM E84 (equivalent to UL 723 and National Fire Protection Association, NFPA 255) is the test method used to determine the Flame Spread and Smoke Developed Indices of the system, consisting of the core substrate, fabric covering and adhesive. NFPA 101, Life Safety Code, defines acceptable Flame Spread and Smoke Developed Indices that have been adopted by the Federal and many State and Local Governments as law in the form of building codes and regulations. Panel cores have been judged acceptable for the use with UL Recognized Component Office Panel Fabrics. Contact KI for the current list of fabrics that are acceptable for use.

Revised Orders

Orders requiring changes to the product or additional options will not incur additional costs unless orders have been processed. Orders revised after being manufactured are subject to additional upcharge.

Changes and Cancellations

Orders cannot be cancelled without the written consent of KI. Charges may be applicable based on costs incurred by KI. Special or custom orders are not subject to cancellation after placement of order.

Repair and Replacement

Any labor charges for correcting a manufacturing problem must be submitted and approved before correction is undertaken, if the units are under warranty. Labor charges will not be paid if the estimate was not submitted and approved prior to labor being completed.

Returns

KI will not permit return of materials without written consent if materials shipped are as acknowledged. Return shipments when accepted are subject to a rehandling, restocking charge, in accordance with the state contract after the merchandise is received and inspected. All freight or express charges must be prepaid on return shipments; otherwise, they will not be accepted. Damaged materials and all items specially built to order cannot be returned under any conditions.

**You make the rules.
We make the rest.®**

Of course KI solutions work better for you. They're made for you. No one pays more attention to customer needs than we do. We don't design our furniture to win awards (even though it does). We don't rely on one-size-fits-all solutions (even though they would make our life easier). We find out what you need. And, we make it. The same applies to our service, distribution channels...everything we do. It's all built around knowing what you want and giving you the choice. KI solutions work, because we're working for you.
