Rolling Base

SPECIFICATIONS

Synthesis™ Table
This system employs double-column noncircular uprights on a horizontal base. It is offered in fixed, folding, and flip-top models. Composition includes T, TT, X and cantilevered configurations.

Bases
Base is built of double-column aluminum extrusion non-circular uprights. A flannel colored plastic (polypropylene) trim piece accents the bottom and a Flannel colored powdercoated steel trim piece accents the top of the uprights. Feet are extruded aluminum and endcaps are diecast aluminum. Uprights, feet and endcaps are powdercoated in all standard colors. Adjustable glides attach to feet. Trim pieces are available only in flannel.

Rolling Synthesis™ Base
Rolling Synthesis™ base may be be ordered with any 'T', 'TT' or 'C' base with 2 legs. The embedded wheels are integral to the base construction and cannot be added or retrofitted to earlier purchases. When rolling legs ar used, one person can easily move a table by lifting the end without wheels and "driving" the table. Not available on 'Flip bases', 'X' bases or Plus table bases.

Synthesis™ Tables Plus Ganging Mechanism
Built of black high-strength nylon, user-friendly ganger with pegs draws tables together. No tools are required when joining tables. Ganger is self-storing under table top. Mounting screws are provided. Tops are predrilled for placement of ganging pegs. Two gangers per table.
CAUTION: Gangers may not be retrofittable to earlier purchased tables.

Synthesis™ Tables Folding Mechanism
Built of 11-gauge, black zinc finish steel, the folding mechanism easily releases and folds leg tightly to table bottom and securely locks with two polypropylene clips. When opened, legs engage into place for a tight, rigid fit between leg and mechanism. Built-in rubber bumpers keep tables separated to prevent marring when tables are stacked on edge. Not available with Veneer tops.

Laminate Table Surfaces
1-1/8" thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Tops are pre-drilled.

Veneer Table Surfaces
Reed (RE) and Facet (FA) veneer tops feature 1-1/8" particleboard cores layered with wood veneer and finished with a seven-step catalyzed varnish.
Plateau (PT) and Undercut (UC) veneer tops feature wood veneer post-formed over 1-1/8" shaped MDF board and are finished with a seven-step catalyzed varnish.
Veneer worksurfaces are not predrilled unless for quantities greater than 50 tables per model.
Veneer surfaces are available in 5 standard KI wood stains.
96" veneer tops are two pieces.

Knife Edge Styles (KN)
Knife Edge styles use 1-1/8" medium density fiberboard (MDF) core with high-pressure laminate top and phenolic backing sheets. Tops are pre-drilled.

Flip-Top
Standard flip-top table does not have a detachable top.

Powder-Coated Finish
Hybrid powder coating is electrostatically applied. The dry coating is then fused and cured in a baking oven to form a smooth continuous film. Finish is chemical-resistant, hard, tough and mar-resistant. Chrome finish not available.

Synthesis™ Lightweight Table
Top is 5-ply construction consisting of .050" thick laminate, 5.2mm 3-ply plywood, .75" thick high-density particleboard frame with honeycomb core, 5.2mm 3-ply plywood and .040" HPL backer.

SYNTHESIS MODESTY PANEL

Modesty panel is constructed of an aluminum/steel frame, surrounding a choice of materials for filler panels. Modesty panel is offered in choice of two sizes: full modesty panel (MF) to allow for uninterrupted design, or short modesty panel (MS) for single-table or desking. Overall dimension are as follows:
MF (full modesty panel): Nominal width of top x 10" tall x 1" wide, with a 1" cable gap at underside of table top, for pass-thru cabling.
MS (short modesty panel): Nominal width of top minus 6" x 10" tall x 1" wide with 1" cable gap.
Filler panel is field removable/replaceable using no tools. Entire modesty panel is attached to the underside of the table top using 2 each, 5/16-18 threaded pan head screws, into zinc, threaded inserts.

Frame construction is .06 thick extruded profile aluminum rails, top and bottom with 10 ga (.13 thk.) formed steel hanger brackets at each end. All parts are fastened with steel screws. cast aluminum end caps complete each frame end. All frame components are powder paint coated. Aluminum rails and cast aluminum end caps are color matched. Formed steel hanger is standard black.

Filler panel construction may be:
a. 20 ga. (.036 thk.) formed, textured steel. Perforations effective opening is estimated at 20%. Insert is powder coated in choice of standard colors.
b. 3/8" thick, 6 ply plywood, with .025 thick laminate of choice, and .025 thick backer. Edges are cut to finished dimensions and bare (not banded or finished).
Customer may supply own 3/8" thick material of choice, cut to finished dimension. UL - HB rating minimum is required. A special order is required for this option.

CONCEALED WIRE MANAGEMENT (TT - LEGS ONLY)

Concealed wire manager consists of 20 ga (.036 thick) powder coated formed steel panel assembled to the outside of the leg using one screw. Color is standard "Flannel".
Inside of leg is molded 1/8" thick, High Impact Polystyrene vacuum-formed vertical wire/cable channel, attached using two screws and a steel fixing bracket on the underside of the table top. Plastic channel standard color is black with lightly textured surface. Fixing bracket is powder coated standard color "Flannel".

Basic dimensions for the wire manage are; 8-3/8" x 2-1/2" x 26". Wire handling capability is large enough for one 1-1/4" dia bundle or single cable, or approx. 8 square inches total area for cordage.

PIN HEIGHT ADJUSTABLE BASES

Standard double column, fixed T-base construction with trim accents applies (top accent trim will be covered by sheath). Height adjustability is accomplished using extruded aluminum channel, over the dual aluminum columns. Aluminum is powder coated and color matched. Steel spring loaded pins, actuated by finger pressure, adjust table height from 27" to 32", in one inch increments.

You make the rules.
We make the rest.®

Of course KI solutions work better for you. They're made for you. No one pays more attention to customer needs than we do. We don't design our furniture to win awards (even though it does). We don't rely on one-size-fits-all solutions (even though they would make our life easier). We find out what you need. And, we make it. The same applies to our service, distribution channels ... everything we do. It's all built around knowing what you want and giving you the choice. KI solutions work, because we're working for you.
